GENERAL INFORMATION

ORGANIZATION

The summer quarter is an "integral" part of the school year. The organization and administration of the summer school is on the same basis as that of the regular school year. Instruction is conducted by the regular staff with the assistance of visiting professors.

PURPOSE

In addition to regular undergraduate and graduate functions, the purpose of the summer school is to offer in-service teachers an opportunity to renew their teaching certificates and to work on their degrees. It is possible for a student to complete a semester of work by entering on April 22 and continuing in residence to the end of the summer quarter. Students who desire a full quarter's work may enter on June 3. The date for registration for a semester, quarter, or six-week period will be found listed in the calendar at the front of this bulletin.

The summer quarter also offers an opportunity for regular students to expedite their progress by continuing their studies through the normal vacation period.

Students from other colleges and universities have an opportunity of securing special courses which they may need to complete their programs.

ADMISSION REQUIREMENTS

Students may enroll for summer courses at Mississippi Southern College if they are included in any of the following categories:

1. Former students of Mississippi Southern College who hold satisfactory records.
2. Graduates of accredited high schools.
3. Transfers from junior colleges.
4. Students who are in good standing at other colleges or universities. Such students may be admitted as special students upon presentation of a certificate of good standing from the last institution attended; it is not necessary to present a transcript of credits unless the student plans to become a candidate for a degree at Mississippi Southern College.
5. Persons who have taken and passed the High School Equivalency Examination or the High School Level General Educational Development Test.

It is necessary for all entering freshmen to file with the director of admissions transcripts of their high school work or other acceptable evidences of eligibility for admission. It is necessary for all regular new students who have been enrolled at other institutions, and all regular former students of Mississippi Southern who have been enrolled at another college or university since being enrolled at Mississippi Southern College, to file with the director of admissions complete transcripts of work done elsewhere. All transcripts should be sent to the director of admissions well in advance of registration dates.

Each student applying for admission for the first time must file with the director of admissions five letters of recommendation from responsible citizens who have known him at least two years. An applicant who resides in Mississippi is required to submit recommendations from citizens of his home county who are also alumni of Mississippi Southern College. A resident of another state may secure the necessary recommendations from any five responsible citizens of his home county.

ACADEMIC REQUIREMENTS

The general regulations governing Mississippi Southern College as set forth in the regular catalog of the college will prevail during the summer school. Students who need assistance in the planning of their work are invited to confer with their adviser or with one of the administrative officers.

THE BASIC COLLEGE

The Basic College is an administrative unit of Mississippi Southern College, in which all undergraduate students are enrolled during their first two collegiate years. The administrative head of the Basic College is the dean of the Basic College. The purpose of the Basic College is to provide a broad educational foundation on which students can build a broad and intelligent interest in the fundamental principles which concern all men.

Students entering Mississippi Southern College who have not attended college are enrolled in and assigned to an adviser from the Basic College. Students transferring from other colleges or universities and having less than 96 quarter hours of acceptable credits are enrolled in and assigned an adviser from the Basic College. Upon completion of 96 quarter hours of credit, students are transferred to the division of their major.

The college core curriculum which is required for graduation provides a general education foundation for all majors and should be completed in the two years the student is registered in the Basic College. Elective courses are available in the Basic College in the student's field or fields of interest. Pre-professional curricula for those interested in specialized pre-professional training are provided in medicine, dentistry, law, engineering, pharmacy, medical technology, and other areas. In addition, two-year terminal courses have been developed for those who have areas of interest in which such curricula are practical.

The advisers, the dean of the Basic College, the dean of men, and the dean of women serve as a close working unit to provide the best in counseling on academic and personal problems. Individual counseling is available in choosing courses of study and in solving academic, vocational, social and personal problems. A program of testing to determine interests and aptitudes of students who are undecided about their vocations is available. Students with special problems are referred to tutors, clinics, and improvement services in reading, writing, speech, arithmetic, and visual training.

CERTIFICATES TO TEACH

Certain teaching licenses need periodic renewal as set forth in Bulletin 130, (1952 Revision), Mississippi Teacher Education and Certification, State Department of Education. Mississippi Southern College offers a wide variety of courses which may be applied to the renewal of such teachers' certificates. Individuals desiring to have a license renewed should request the registrar to send a transcript of their credits to the Department of Certification, State Department of Education, Jackson, Mississippi, and complete an application form for the particular license desired. The faculty of the Department of Education will assist students in interpreting and planning courses to meet the requirements for certification.

PRE-PROFESSIONAL CURRICULA

Pre-professional curricula are available for students interested in medicine, dentistry, medical technology, law, engineering, pharmacy, optometry, and nursing.

Students who are planning to enter one of these fields should consult the dean of the basic college for further details on the program.

RELIGIOUS AND SOCIAL ORGANIZATIONS

The Christian Federation plans for the college community as a whole, while the various denominational organizations meet the needs of their particular members. Noonday prayer meetings and Wednesday evening vespers are under the auspices of the federation and are held in the new Danforth Chapel located directly south of the college cafeteria. This chapel is also available for private meditation from the hours of 7 a. m. to 7 p. m. Dormitory meditation groups are organized in all of our residence halls.

Religious Emphasis Week is sponsored each year by the Christian Federation with the cooperation of the entire campus.

Picnics, hayrides, concerts, square dances, and other activities are planned and sponsored by social and departmental groups. Two traditional events are the chicken barbecue held during the first part of the quarter and the watermelon cutting which is an event of the second term.

The Division of Health and Physical Education provides an intramural program including softball, swimming, tennis, and other sports. A water carnival is held in July.

Outstanding chapel speakers, musical programs, and college plays are scheduled. Educational tours to points of nearby historic interests are arranged.

PLACEMENT BUREAU

Mississippi Southern College endeavors to maintain a centralized placement bureau to serve majors in all divisions and departments of the college. Information is available on employment opportunities and job listings in teaching, business, government and industry, and every effort is made to assist graduating seniors to find positions in their chosen fields and to help alumni who are interested in changes or promotions. Likewise, information on the qualifications of registered applicants is supplied prospective employers, and interviews with campus recruiters are arranged for interested candidates.

In order to receive full benefit of placement services, graduating seniors should register with the placement bureau during the first quarter of their senior year. Summer school students should consult the placement director soon after summer registration. Alumni and returning veterans are invited to use the services of the placement bureau at all times.

STUDENT TEACHING

In cooperation with the Hattiesburg Public Schools, the George Hurst School (formerly Demonstration School) will offer a complete program in grades one through eight during the summer session. Facilities for observation and practice teaching will be available in all these grades.

In the field of health, physical education and recreation, ample opportunities are provided for students teaching on both elementary and high school levels in the Recreation Program of Hattiesburg, which is supervised by the staff of this college division.

OPPORTUNITIES IN SPECIAL EDUCATION

In Mississippi, and throughout the nation, opportunities for teaching the exceptional or atypical child are increasing rapidly. The Mississippi Legislature continues to enact appropriation bills in support of financial aid to public schools in meeting the excess cost of special education. Special classes and services for handicapped children have been established in several of the public school systems in order to more adequately meet the needs of children with **physical handicaps, mental handicaps, speech defects, impaired hearing, and impaired vision.**

Mississippi Southern College has established course work and opportunities for clinical experience which qualify the teacher to work in this field. In addition to special course work offered, actual experience is available in the **Speech and Hearing Clinic, Reading and Sight Conservation Clinic, and Psychological Clinic.**

Courses and clinical experience are available to students in the following areas: **speech therapy, remedial reading, psychology and education of exceptional children, and education of the mentally handicapped.** Course work and clinical practice necessary for meeting the new certification requirements are being offered in the fields of speech correction and the education of the mentally retarded.

THE READING CLINIC

The nationally recognized Mississippi Southern College Reading Clinic is one of the best equipped clinics of its kind in the South. Its testing and individual teaching facilities offer excellent training for prospective specialists in the reading field, and also for teachers wishing to become more proficient in the teaching of reading.

In addition to an excellent collection of professional books, many attractive children's books and remedial training material, the Reading Clinic has the best obtainable equipment, including a telebinocular, orthorater, audiometer, tachistoscopes, opthalmograph, reading films, film-strips, projectors, tape recorders, and oscilloscope. Practical training with these is given to teachers enrolled in Reading Clinic courses.

A graduate course sequence leading to the M.A. degree with a major in the psychology of reading, has been instituted to help fill the demand for qualified, well-trained reading specialists. A program of research in this area is also underway.

A new and important function of the Reading Clinic is to give corrective and developmental reading help to students in the Basic College. Individual and small group teaching, as well as regular college classes stressing efficient study habits and effective speed of reading, is available to all college students.

Among the services offered to the community by the Reading Clinic in addition to the training facilities, are diagnostic testing of children with reading problems, and counseling with them and their parents. Remedial instruction by qualified teachers is given to a limited number of children who are retarded in reading.

Children may be referred to the clinic by superintendents, teachers, parents, vision specialists, and other agencies. The fee for a complete educational diagnosis and a suggested program for remedial procedures is $10.00 or a proportionate part, based on ability to pay.

Daily instruction is given to out-of-town and local children throughout the school year and through the summer months. If a child is enrolled in the clinic for individual remedial instruction, the fee is $20.00 per month. It is usually desirable to have a child receive instruction five periods per week. The total number of hours for remedial training required by a child will vary with the extent and type of difficulty exhibited.

The increased demand for teachers who are qualified as reading specialists has brought about the extension of courses to meet this demand. Write to the director of the Reading Clinic for information.

SUMMER THEATRE

The Southern Players will present a workshop production during the summer quarter. Any regular enrolled summer school student is eligible to assist in the production, which will be performed in the Little Theatre, West Hall.

SUMMER RADIO

It is customary to offer both introductory and advanced courses in radio and television during the summer quarter. The campus radio station serves as a training laboratory for radio students while maintaining a broadcasting schedule five days a week. Students seeking further information should contact Thomas E. Maclin, Director of Radio.

SUMMER SPEECH AND HEARING CLINIC

The Speech and Hearing Clinic of Mississippi Southern College will operate during the summer months, offering assistance to any regularly enrolled summer school student with a speech deficiency calling for clinical assistance. Non-students may also receive diagnosis and treatment.

SUMMER ORAL READING

One or more reading hours will be sponsored by the Speech Arts Division during the summer months. The faculty and students participating will endeavor to illustrate effective techniques for the oral interpretation of literature. The public will be cordially invited.

BANDS, CHORUS, AND LITTLE SYMPHONY

A special chorus will be organized during the summer quarter as well as a special concert band and little symphony. The choir, band, and orchestra will meet for regular rehearsals one evening each week. Special concerts will be given by these organizations during the summer session.

THE LIBRARY

The Joe Cook Memorial Library, which is located in the center of the campus, houses a rapidly increasing collection of books, periodicals, and other types of materials. This includes the Sam Woods Collection of art and rare books. The library is a depository for United States Government Documents and for State Documents of Mississippi. Hours are from 7:45 A. M. to 10:00 P. M. on Monday through Friday and from 8:00 A. M. to 6:00 P. M. on Saturday.

BOOKSTORE

The college bookstore is well stocked with textbooks, art materials, and all other instructional supplies needed by the student. The bookstore also carries soft goods, greeting cards, stationery, radios, and small electrical appliances, etc.

STUDENT HEALTH SERVICE

The Student Health Clinic is available to every regularly enrolled student. One of the college nurses is on duty at all times.

A college physician is available to students for consultation at the college hospital during his regular office hour. Both college physicians are on call.

LIVING ACCOMMODATIONS

The college has available dormitory accommodations for approximately 1500 students. Those desiring to room in a dormitory should send an $8.00 room reservation fee to the Housing Office. Room reservation fees will be credited to the student's account. No room reservation deposit can be refunded unless the reservation is canceled ten days prior to the opening of the quarter for which the reservation is made.

Rooms are equipped with the following furniture: two or three single beds with comfortable inner-spring mattresses, a dresser, a chest of drawers, lavatory, chairs, and a study table. Students must furnish all linens, bed coverings, pillow, and curtains for windows and closet doors. Although dormitories are cooled by attic fans, an electric fan will contribute to the comfort of the room.

A limited number of houses and apartments are available for married students on the campus.

If the dormitories are filled, living accommodations for women students outside the dormitories must be selected from the list approved by the college authorities.

All students not living in their own homes, whether rooming in the dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the college.

ANNUAL WATERMELON CUTTING IS A TRADITION
AT MISSISSIPPI SOUTHERN

SPECIAL EVENTS FOR THE SUMMER

ADMINISTRATORS' CONFERENCE

The sixth annual Administrators' Workshop Conference will be held for two weeks during the first six weeks of the summer session.

Nationally known educators are invited to the campus as consultants. Among the visiting lecturers who have been on our campus as consultants of the Administrators' Workshop are: Dr. Harl Douglass, Dean of the College of Education, University of Colorado; Dr. Paul R. Mort and Dr. Frank Cyr, Professors of Education, Teachers College, Columbia University; Dr. Virgil Rogers, Dean of the School of Education, Syracuse University; Dr. Donald P. Cottrell, Dean of the School of Education, Ohio State University; Dr. N. L. Engelhardt and Dr. Stanton Leggett, Engelhardt, Engelhardt, and Leggett, New York; Dr. Alice Keller, New York University; Dr. Henry B. McDanile, Stanford University; Dr. J. B. White, University of Florida; and Dr. Norton Beach, Teachers College, Columbia University.

The visiting consultants will be composed of men of the same calibre for this summer.

It is the purpose of this conference to offer an opportunity for administrators of Mississippi and the South to study and discuss, under the leadership and direction of nationally known educators, the problems that are most pressing. The general plan the workshop will follow is for the visiting educator to present a topic for an hour—this followed by a question and answer period for an hour. Then two hours will be used in discussion and further study of the problems of interest to small groups.

The workshop may be taken for credit or be audited as one desires. It will carry one and one-half hours per week of graduate credit. Participants may enroll for one week or for the total conference. Mississippi Southern College feels it is rendering a service to the administrators of this state and the South in bringing to the campus nationally known educators to assist in solving problems of the administrators.

For particulars or reference to the workshop, or for further information, write to Dr. Ralph S. Owings, Head and Professor of Educational Administration, Mississippi Southern College, Hattiesburg, Mississippi.

THE READING CONFERENCE—JUNE 10-14, 1957

The seventeenth annual Reading Conference will once again be one of the attractive features of the summer session. An internationally known personality, Dr. Arthur I. Gates, will be the leading consultant for the 1957 Reading Conference, which has as its theme, "Promoting Growth in Reading."

Dr. Gates, who is recognized as one of the leaders in the field for many years, is only one of the consultants who will participate in the conference. Demonstrations of classroom and clinical techniques, displays of materials, study groups, and discussion sessions will be held under the direction of leaders from several parts of the country.

One and one-half quarter hours of credit are offered for conference participants (Education 104a, b, and c or Education 534). The Reading Conference may be taken for undergraduate credit three times; for graduate credit once. Boards of education have sent teachers from schools in Mississippi, Alabama, Louisiana, and other states as a part of their in-service training. When these teachers, supervisors, and administrators do not wish

credit, they register as auditors. The charge for the Reading Conference is $12.50 for students who wish credit and $8.75 for persons who wish merely to audit the conference. The complete program will be available in May. Anyone interested in securing advance information may do so by writing Dr. Ralph C. Staiger, Director of the Reading Clinic, Station A, Hattiesburg, Mississippi.

SUMMER CONFERENCE FOR SOCIAL STUDIES TEACHERS

A field trip to the West and Northwest will be a feature of the 1957 summer program of the Geography Department. The class will leave Mississippi Southern College on June 10 by air-conditioned bus, and will spend 25 days visiting such places as Carlsbad Caverns, N.M., the Grand Canyon, Los Angeles, San Francisco, the Redwood Forest, Vancouver, B.C., Yellowstone Park, and the Black Hills.

The trip will be conducted by Dr. Arthell Kelley, Professor of Geography, and will include a planned program of instruction. Persons who wish to take this course for credit will register for Geography 194 or 494.

For information, contact Dr. Kelley, Box 241, Station A, Hattiesburg.

AN ATTRACTIVE FEATURE OF THE SUMMER QUARTER IS THE LIBRARY WORKSHOP

TEACHER TRAINING IN THE EDUCATION OF EXCEPTIONAL CHILDREN

An institute dealing with problems of the mental health of school children is being planned for the summer quarter. This institute will be the result of joint planning and co-operation of health, welfare, and educational agencies of the state.

Persons interested in teacher training in the education of exceptional children may receive further information by addressing:

Special Education Services

FOURTH ANNUAL MUSIC EDUCATION WORKSHOP

The fourth annual Music Education Workshop will be held July 22 through August 2, 1957. It is for: classroom teachers in the elementary grades, special music teachers in the elementary grades, supervisors and directors of music, directors of curriculum, general supervisors, and directors of elementary education.

Clinics, lectures, demonstrations, and conferences will be a part of each day's activities with group participation and demonstrations growing out of the needs of the individual participants in the workshop.

The direction of the workshop will be shared by regular members of the college staff, visiting consultants, and three outstanding music educators from the American Institute of Music Education. The American Institute of Music Education was established in 1884 and pioneered in recognizing music for our children as an essential part of their everyday living, and has continued to influence the type of training that produces inspiring and effective leadership in our schools and communities.

Among the outstanding music educators being brought to Mississippi Southern College for this music workshop by the American Institute of Music Education are the following:

James E. (Jimmie) Green, M.A., Music for Children (Methods), Consultant in Music Education, Silver Burdett Company.

Edna Doll, M.A., Rhythms for Children, Director of Rhythms, East Orange, New Jersey.

Sally Tobin Dietrich, M.A., Listening in Music, Director of Music, Rockville Centre, New York.

The Music Education Workshop emphasizes participation—workshoppers "learning to do by doing." There is participation in rhythmics, listening, elementary instrumental activities, singing, and sight-reading.

For further details write Mr. Frank E. Marsh, Jr., Division of Fine Arts, Station A, Hattiesburg, Mississippi.

PIANO WORKSHOP AND PIANO MASTER CLASS

A Piano Master Class and Piano Workshop is to be held for five days, beginning July 8 and lasting through July 12, by Dr. Rudolph Ganz, internationally famous pianist, master teacher, lecturer, composer, and editor, assisted by Professor Joseph Huck, Head of the Mississippi Southern College Piano Department.

For further information, write Mr. Frank E. Marsh, Jr., Chairman of the Division of Fine Arts, Mississippi Southern College, Hattiesburg, Miss.

SCHOOL LIBRARY WORKSHOP

The fourth annual School Library Workshop, in co-operation with the State Department of Education, will be held in the library July 29-August 2. The workshop will carry one and one-half quarter hours of credit. The topic for chief consideration in 1957 will be library resources: free and inexpensive materials.

SCHOOL-LUNCH MANAGERS WORKSHOPS

The tenth annual School-Lunch Managers Workshops will be held in the Home Economics Building July 15-26, 1957. The Division of Home Economics will have the co-operation of the State Department of Education School-Lunch Program and the State Board of Health.

The workshops are open to any school-lunch manager or worker, or to anyone interested in becoming a manager. Two one-week sessions will be held. The first week, July 15-19, is planned for the managers who have attended one or more workshops. The second week, July 22-26, is planned for the managers who have never attended a workshop. The workshops are designed to meet the needs and interests of each member.

For those qualified, undergraduate credit of one and one-half quarter hours may be earned by taking the advanced courses July 15-19.

PRE-SCHOOL TEACHERS WORKSHOPS

The third Pre-school Teachers Workshop, a one-week workshop, in co-operation with the State Department of Public Welfare, will be held in the Home Economics Building, June 3-8, 1957. This workshop is intended for the day-care operators as a means of helping those people in the state who are giving daytime care to pre-school children. Emphasis will be placed upon increasing knowledge of standards in physical, mental, social, and emotional development of young children. This workshop will be of interest to kindergarten and elementary teachers.

BASIC COURSE ON THE BISHOP METHOD OF CLOTHING CONSTRUCTION

The third annual Institute for the Basic Course on the Bishop Method of Clothing Construction for graduate students in home economics will be held in the Home Economics Building, June 10-15, 1957. This institute will carry one and one-half quarter hours of graduate credit, as Home Economics 660. The last two days of this institute will be given to the problems in cutting-to-fit. The institute is offered for teachers, home agents, and others who wish an introduction to Mrs. Bishop's widely acclaimed and entirely new method of teaching clothing construction.

For additional information contact Dr. Bertha Fritzsche, head of the Division of Home Economics.

THE BISHOP METHOD APPLIED TO TAILORING

The first annual Institute on the Bishop Method Applied to Tailoring for graduate students who have had Home Economics 660 will be held June 17-22, 1957. This institute will carry one and one-half quarter hours as Home Economics 661, or two quarter hours of credit if combined with the two days of work on **cutting to fit**, June 14 and 15.

A brochure giving more details on the institute is available by writing to Dr. Bertha M. Fritzsche, Director.

INSTITUTE IN ADVANCED QUANTITY COOKERY

A three-weeks course carrying four quarter hours credit will be offered June 24 to July 12, on Advanced Quantity Food Preparation, Home Economics 678. The course is designed for area school lunch food supervisors and directors of school lunch food services, or others responsible for large quantity food operations. Miss Louise Frolich, Kosh Refrigerator Company, will be the visiting professor.

Two three-weeks courses will be taught by Miss Tessie Agan, Kansas State College, who will be the visiting professor. These courses are for teachers, extension workers, or others on the graduate level who wish instruction in housing and house furnishings. The courses are:

Home Economics 674e, Special Problems in Housing, two quarter hours, June 24 to July 12, 1957.

Home Economics 674g, Special Problems in House Furnishings, four quarter hours, July 15 to August 2, 1957.

CHALLENGING CAREERS

Available Through the

INSTITUTE OF LATIN AMERICAN STUDIES

Would you like . . . .

1. to travel with all expenses paid?
2. to visit Latin America long enough to get to know a country and begin to understand its people?
3. to be offered a position including the above and a good salary?
4. to be considered well-traveled and cosmopolitan?

You can accomplish all this and more by taking one of the several courses in Latin American studies. It is true that you will want to learn Spanish, but you need not be an expert and lots of people have done it and are doing it now. You will not be expected to talk as a native, and Mississippi Southern offers some unusual advantages that make it much easier to learn the language. Of course, if you have already had two, three or four years of the language in high school, you have a big advantage.

Many excellent positions and careers are open in the Latin American field. They offer high salaries, expense paid travel and afford opportunities to exercise creative talents and administrative ability. The requests to fill such positions come with ever increasing frequency.

In spite of the high salaries offered it has been difficult to fill the vacancies because so few people can speak another language. They have not learned languages because of an unnecessary fear of them. The learning of a language has been hard in the past because of outmoded methods and an insistence on perfection. Now it is known that the important purpose is to speak, to make oneself understood. Mississippi Southern has been developing facilities that now bring the language to life, make it easier to learn and enjoyable while you acquire an ability to communicate with Spanish-speaking people. Much can be learned about the language and the customs of Latin America by association with the students from there who come to the Institute to learn English and United States customs and culture. There is also the Spanish atmosphere surrounding the Institute and created by the sounds of the language, the architecture (including the patio)

and the handcrafts, artifacts, and people. A more advantageous and helpful learning situation could be found only by going to and living in those countries.

In addition, the Institute of Latin American studies coordinates certain courses of several college divisions and departments to make available some courses that would not be open to the student through the usual system of majors and minors. These curricula are based on real needs as demonstrated by experience gained while actually working in Latin America. They are practical and lead to specific positions. Those who seek well-paid employment as a channel through which to secure a sense of worthwhile accomplishment through genuine service to their fellow man will find these careers attractive. The training offered by the college through the Institute includes the following:

1. The B.A. in Latin American studies with emphasis on the social studies.
2. The B.A. in foreign service.
3. The B.A. with a major in economics and related fields with a minor in Latin American studies.
4. The B.A. with a major in foreign trade.
5. The B.A. in secretarial studies preparing for office management in Latin America or in United States offices dealing with Latin America.

MUSIC EDUCATION WORKSHOP PARTICIPANTS, 1956

6. A two-year course leading to the certificate of bilingual secretary-interpreter (or receptionist) specializing in inter-American affairs. (Ask for special folder.)

7. The B.A. in Latin American studies leading to certification as a teacher of Spanish.

8. A one-year intensive course in Latin American studies for graduate students, businessmen, professionals, technicians and teachers, who must prepare quickly to perform assignments or who for other reasons are going to Latin America with a serious purpose.

9. The B.A. with a major in Spanish or Portuguese and specialization in one of several fields of secondary education.

10. The B.S. in Latin American Studies which prepares for service careers in the following areas:

    1. Elementary education.

    2. Reading specialist.

    3. Home economics and home making.

    4. Health education.

    5. Sanitation and sanitary engineering.

11. Special ten weeks intensive **Spanish** course which gives the ability to speak Spanish well enough to get along in a Spanish-speaking country. Write for special folder.

For additional information concerning Latin American studies write for the BULLETIN or for the folder entitled, "The Bi-lingual Secretary."

GULF COAST RESEARCH LABORATORY

The Gulf Coast Research Laboratory is located on the Gulf Coast just south of Ocean Springs, Mississippi. It is under the control of the Board of Trustees of the Institutions of Higher Learning and is therefore an integral part of the system of higher education for Mississippi. Credits received for work done at the laboratory are recognized by all the colleges of the state. Both graduate and undergraduate work is given at the Gulf Coast Research Laboratory. Mississippi Southern College is closely associated with the work at the laboratory, and our students and faculty have been active participants in the pioneer research work and instruction carried on at this outstanding institution for marine investigations.

Dr. Gordon Gunter is director of the laboratory. His staff includes two full time research assistants, who are stationed at the laboratory throughout the year. A brochure announcing the 1957 program of the laboratory will be sent out from the laboratory within a few months. The courses offered for the 1957 summer program are listed below. Other courses may be added sometime before the summer program begins. These additional courses will be announced through the Division of Biological Sciences as soon as the information is available.

The following courses in biology will be offered during the 1957 summer program:

Biology 153-453—Marine Invertebrate Zoology. Nine hours.

A lecture, laboratory, and field survey of all marine phyla of the animal kingdom, exclusive of the Chordata, with special reference to the fauna of

the Gulf of Mexico. Phylogenetic relationships, life histories and distributions will be stressed.

Prerequisite: Twelve hours in biology including introductory zoology.

Time: June 4-July 1. Dr. Gunter, Mr. Moore.

Biology 156-456—Marine Vertebrate Zoology. Nine hours.

A formal lecture and laboratory survey of all marine Chordata, including the lower subphyla, the fishes, reptiles, mammals, and shore birds.

Prerequisite: Twelve hours in biology, including comparative anatomy.

Time: July 16-August 24. Dr. Gunter, Dr. Shoemaker.

Biology 501—Problems in Marine Zoology. Six to nine hours.

Supervised research problems for students with sufficient background.

Prerequisite: Consent of instructor.

Time: Throughout the summer. Dr. Gunter.

GEOLOGY FIELD CAMP

The Geology Department announces a six-week summer field camp course. The 1957 camp will be located in the Appalachian Region. Tentative arrangements have been made for the Spring Valley, Tennessee area of the Southern Appalachians for the camp site and working area.

The work will include field methods, instrumentation, stratigraphy, structure, paleontology, physiography, and sedimentation.

Credit is allowed at the rate of 1½ quarter hours per week.

One six week camp is required of all geology majors.

Camp dates: June 3rd to July 13th.

Detailed information relative to the exact camp location, expenses, living facilities, necessary equipment, and instructional personnel may be obtained from the Department of Geology after February 1, 1957.

THE GRADUATE SCHOOL

(A special bulletin is available on request)

One of the primary functions of Mississippi Southern College is to prepare teachers, supervisors, and administrators for all branches of public school service. The graduate curriculum is intended to meet the needs of teachers in the elementary and secondary schools and junior colleges as well as to provide an organized program of training for school administrators and supervisors, advanced music work, and speech clinicians.

The student who pursues graduate work broadens his professional outlook and academic knowledge, receives additional professional training and familiarizes himself with techniques of research. The student must manifest ability to collect and evaluate data and must be able to see the implications of his conclusions in relation to other fields of human interest and study.

The Master of Arts degree in education will be regarded primarily as an extension and broadening of the professional education received on the undergraduate level with particular emphasis upon the field of study in which the student is interested. The goal sought is the improvement of classroom instruction and/or school administration and supervision.

The ultimate aim is the fusion of the professional and subject-matter training of maximum benefit to the particular student.

The Master of Arts degree will be conferred on those meeting the requirements in the field of education in the following fields: school administration and supervision, secondary education, elementary education or elementary supervision, communications, health and physical education, home economics education, music, music education, administrative personnel and counseling, psychology of reading, general speech, and speech correction. Those majoring in secondary education may take minors in biology, commerce, English, guidance, history or social studies, mathematics, and speech. For those who wish to specialize more in subject-matter fields, the secondary education major will permit majors in the following teaching fields: biological sciences, business education, commerce, English, history or the social studies, and mathematics.

The Master of Education degree is offered in the following fields of study: school administration and supervision, secondary education, and elementary education. This work is designed to meet the needs of those who wish a terminal degree beyond the Master of Arts degree and also for those who expect to pursue work toward the Ph.D. or Ed.D. degree.

EXPENSES

A primary objective of the college is to maintain at a minimum the expense of its students. Changes in fees are made whenever possible to benefit the students. Increases are made only when required for support of the institution or improvement of the activity program of the students.

BUSINESS REGULATIONS

Announcements concerning expenses and furnishings are subject to change without notice and may not be regarded as binding obligations of the college. In time of changing conditions this stipulation is necessary.

Expenses are in the form of incidental fees, room, board and special fees.

INCIDENTAL FEE. This fee is used for general support of the college and consists of charges for matriculation, library, athletic activities, health service, student union, college newspaper, laboratory, concert series, maintenance, etc.

ROOM AND BOARD. These fees are assessed for all students living in college controlled housing. The board fee is assessed for all students living in fraternity houses, and in certain cases fraternity room fees are assessed by the college. All students rooming in dormitories or fraternity houses are required to take their meals in the college cafeteria.

No reduction in room and board expense is made for absence of less than two continuous weeks, and then only when the absence is necessary and is reported to the Business Office in advance. No reduction of room or board is made on account of late entrance.

OTHER FEE INFORMATION. Clinical and hospital services covered by the health service charge included in the incidental fee are limited to cases of ordinary illness. Services are provided within the limits of the professional, technical and physical resources of the clinic. The college does not assume responsibility in cases of extended illnesses or for treatment of chronic diseases. Cases requiring surgery must be handled by a physician and hospital of the student's choice.

Students enrolled for more than 19 hours will be assessed $5.00 for each additional quarter hour.

Students who are permitted to register for correspondence courses in residence will be charged the regular fee of $5.00 per quarter hour.

A fee of $1.00 is assessed each quarter for operation of the Student Union. This fee is added to the incidental fee assessment of part-time students.

Courses requiring special fees and music fees are shown in the Special Fee listing (Table II).

A six dollar fee for the Southerner (college annual) is payable by all full time students on entrance the fall quarter.

A registration fee of $10.00 is required of all graduate students as an entrance fee in the Graduate School. This fee is not refundable.

REFUND POLICY. A student who officially withdraws after he has been enrolled may obtain a refund in accordance with the following:

a. A full refund of fees will be made to a student who withdraws within three days after date of registration.

b. Should a full time student withdraw for any reason prior to midterm of any quarter, fifty percent of the incidental fee will be refunded.

c. Should a full time student withdraw after midterm of any quarter, no part of incidental fee will be refunded.

d. Special and part-time student's fees will not be refunded after three days from date of registration.

e. No adjustment of incidental fee will be made where courses are dropped after three days from date of registration.

f. Room and board fees are refunded on the basis of weeks remaining in the quarter.
